

# Purple Chair Podcast Series

# Purple Chair Podcast Series

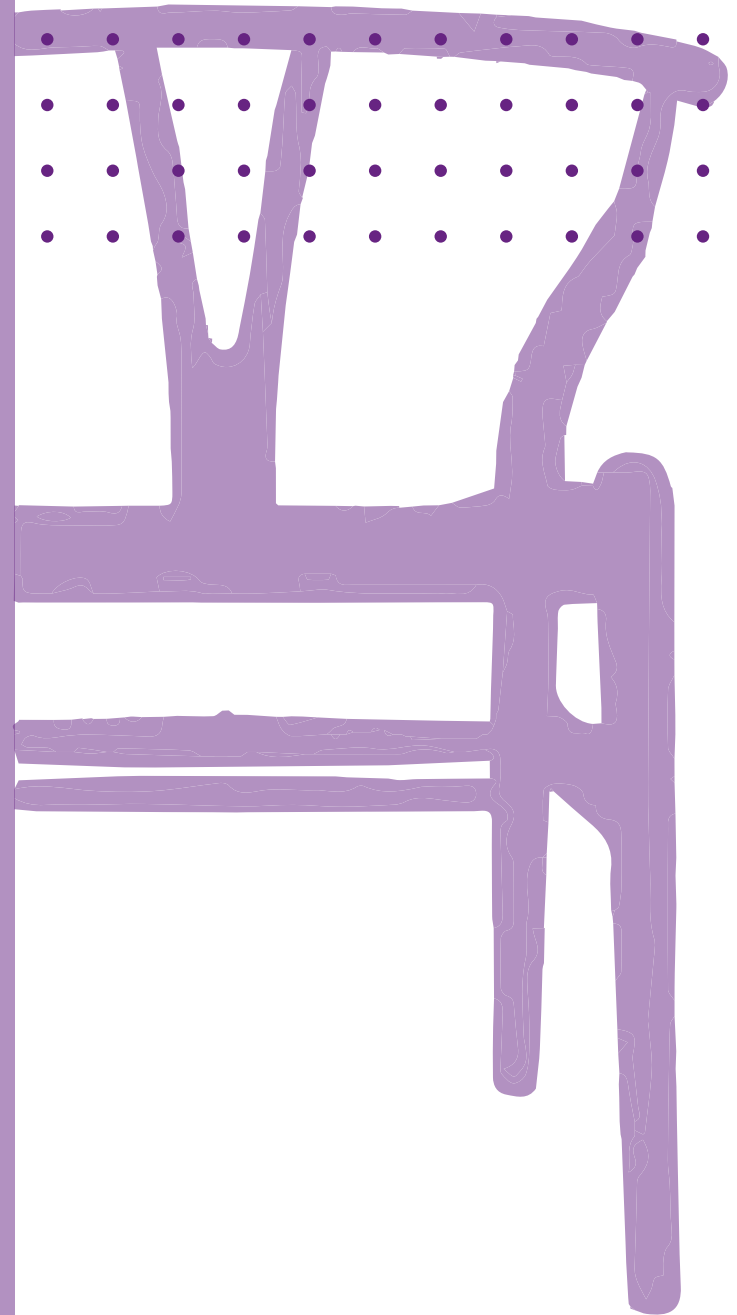

This is an initiative that emphasizes the importance of involving youth in change.

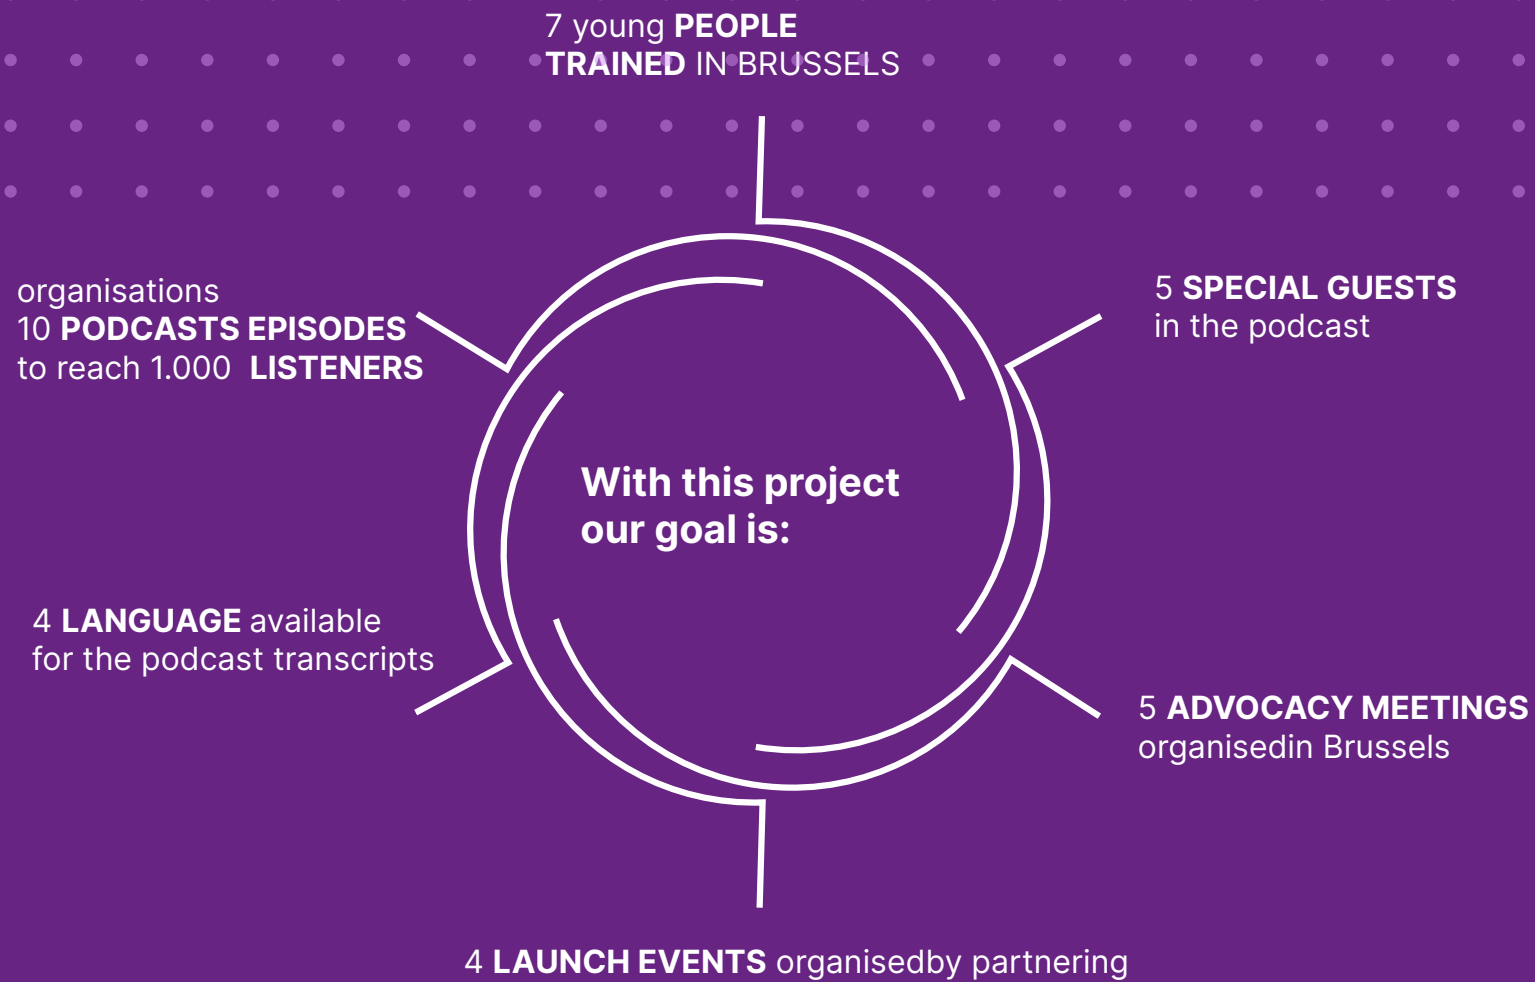

Young people have the potential to be agents of change, and their active participation is essential to address the most pressing global challenges.

Through the podcast, we seek to empower pan-European youth and strengthen their communication, awareness, and digital skills.

- In particular, the podcast aims to give visibility to the voices of young people from communities affected by female genital mutilation (FGM)
- By involving young ambassadors, we hope to strengthen their digital skills and create digital learning spaces for young people by young people.
- Our goal is to increase awareness among European youth about FGM and promote youth participation in the fight against gender-based violence and harmful practices

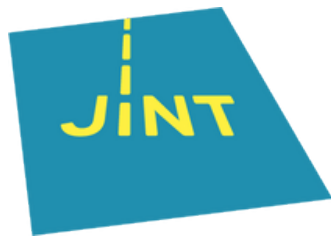

"Purple Chair Podcast Series" is a key initiative to democratize gender equality and end FGM activism among youth.
